ISBN: 9798697900796

Introduction

In this book the author Tiffany E. McDorman aims to integrate the theoretical notions and methods illustrated in the book "Learn Arabic! For Kids!" with a series of simple exercises to do in order to practice the alphabet and numbers 1 to 10. This exercise manual can be used by children, aged 3 and over, who have a parent or teacher with, at least, a basic knowledge of the Arabic language. The purpose of the exercises is to allow the child to become familiar with the Arabic script. The child will

be able to combine the pleasure of coloring the figures of the animals inserted in each section with learning Arabic letters and numbers tracing in an increasingly precise way. The parent or the teacher will have to follow the kid and show, at least the first time, how to draw a letter of the Arabic alphabet; the rest will have to be done by the child independently, trying to replicate what the adult did. We hope that this workbook is not just a way for your child or student to learn the rudiments of the Arabic alphabet : we also want this to be a way to allow you to spend time with your kid, because there is nothing more beautiful for a child than to see his or her parents caring and enjoying spending time together.
